PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience building scalable, responsive and web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing reusable frontend components, RESTful APIs, backend services, database integration, and using Redux and Context API. Skilled in building e-commerce applications, optimizing application performance. Strong understanding of full-stack development, API integration, authentication, and modern web technologies.

EXPERIENCE

Possessive Panda

Noida, India

Full Stack Developer- Khush Pehno Ecommerce Project

Feb 2026 – Present

- Developing and maintaining scalable e-commerce applications for Indian and US-based platforms using MERN stack (React.js, Node.js, Express.js, MongoDB) and Tailwind CSS.
- Built responsive, reusable frontend components and integrated RESTful APIs for product, category, pricing, order, and user management features.
- Developed backend services, API endpoints, database schemas, and optimized application performance for high-quality user experiences.
- Implemented dynamic product listings, search, filtering, authentication, and responsive UI features for e-commerce platforms.
- Optimized React applications using best practices including component optimization, lazy loading, and efficient state management.
- Collaborated with UI/UX designers and backend teams to deliver scalable, production-ready features in an Agile environment.
- Managed Git workflows, debugging, code reviews, and deployment activities while ensuring cross-browser compatibility and performance improvements.

Cognizant

Noida, India

Frontend Developer - One Toyota Project

Nov 2021 – April 2024

- Developed and maintained scalable, responsive web applications using **React.js**, **JavaScript (ES6+)**, **HTML5**, **CSS3**, and modern UI frameworks.
- Implemented state management using **Redux** and **Context API** for complex enterprise applications and improved application scalability.
- Worked on enterprise projects including **Toyota Customer Engagement Platform** and **EPC Admin**, building reusable components and optimized user interfaces.
- Improved application performance using **React.memo**, **lazy loading**, **React.lazy**, **Suspense**, and code splitting techniques.
- Built reusable UI components, custom React hooks, dynamic forms, and responsive layouts with cross-browser compatibility.
- Integrated REST APIs, implemented client-side routing using **React Router**, and handled form validation using **Formik**.
- Collaborated with designers and backend teams to deliver pixel-perfect, maintainable, and production-ready frontend solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Redux, Context API, React Hooks, React Router, Tailwind CSS, Material-UI, Formik

Backend: Node.js, Express.js, RESTful APIs, Authentication (JWT), API Integration, Middleware

Database: MongoDB, Mongoose, Database Design, CRUD Operations

Tools & Platforms: Git, GitHub, NPM, Postman, Vite, VS Code, cursor

EDUCATION

Chandigarh University

Chandigarh, India

Bachelor of Engineering in Computer Science

2017 – 2021
